

Make your own Cardboard Camera

Craft your own creative cardboard camera toy for pretend play!

Materials

- this A4 printable template
- Copies of this template printed or pasted onto A4 cardboard
- Scissors
- Sticky tape
- Stickers and cellophane to decorate
- 1 metre length of string or ribbon
- Hole punch

Instructions

Step 1

Carefully cut around the dashed lines on the template.

Step 2

Fold the camera together and secure using sticky tape.

Step 3

Sticky tape some coloured cellophane on your camera flash and viewfinder to decorate. You may also like to add spot stickers to fancy up your camera.

Step 4

Hole punch your camera at the sides and add string so you can wear your camera around your neck.
