HOW TO READ A TREASURE MAP

1. Land at dawn and walk towards sun. In what direction will you go?

2. Why is Cut Throat Cove a better place to land than Crossbones Beach, even though it is further away from the treasure?

3. How far is it from Cut Throat Cove to Pirate's Rest? (stop at the waterhole on the way)

4. Read the riddle of Skull Mountain. What would you look for in the distance to help you find where X marks the spot?

5. Why do you have to 'dig fast or die' when you find the treasure?

6. What do you think happened to other pirates who tried land at Buccaneer Bay?

7. The treasure is buried half as deep as the height of the waterfall. If the waterfall is 10 metres high, how deep will you have to dig to find the treasure?
